

2025 AFRICA PUMP SCHOOL

INDUSTRY EXPERTISE

Join us at our first Africa Pump School, the premier event for professionals in the pumping industry. Led by industry experts from all over the world, this comprehensive curriculum covers everything from pump theory to design principles and troubleshooting techniques. It's the perfect opportunity to stay current with the latest advancements in the field and network with fellow professionals.

Whether you're a seasoned engineer, maintenance expert, or new to the field, our Pump School offers the perfect blend of theory and practice.
